STANDARD

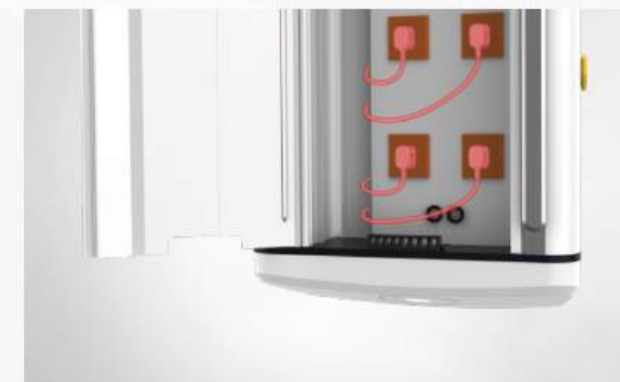

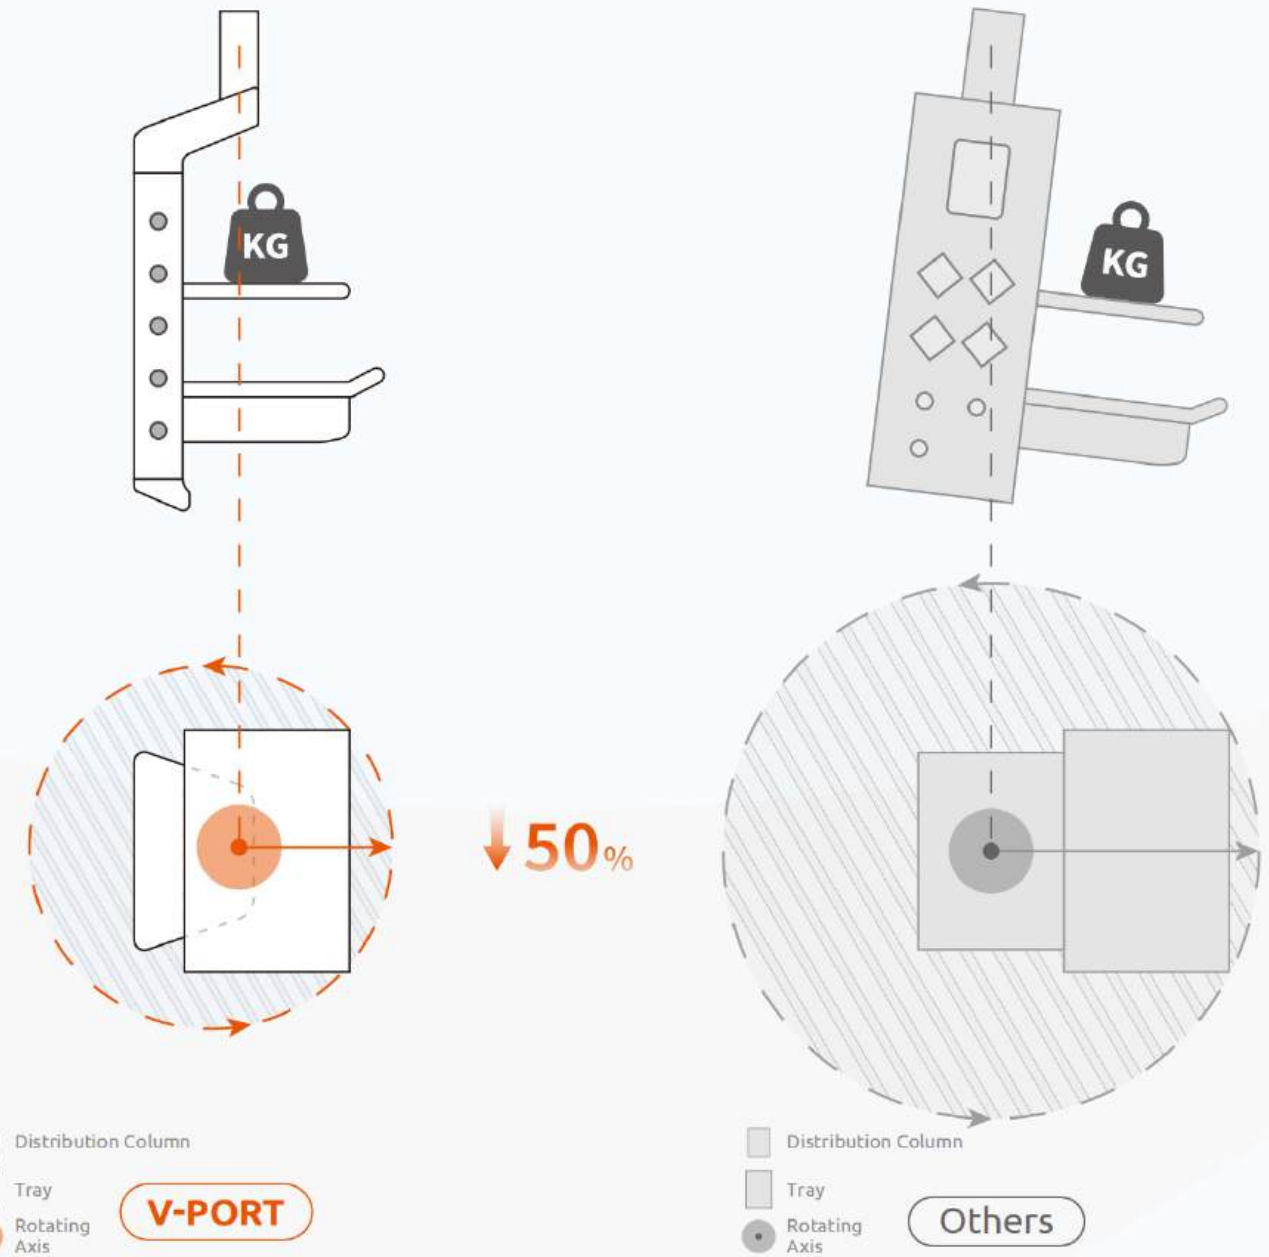

V-PORT series medical supply units comply to the following standards:

- ISO 13485 .
- ISO 11197 .
- IEC 60601-1, IEC 60601-1-2 .
- RoHS Standard.
- MDR EU 2017/745, MDR CE Marked.
- NFPA 99 Health Care Facilities Code.

Gravity Centered Alignment Design

- Gravity centered alignment design of certain distribution column can save up to 50% space.
- Perfect solution for the column tilting problem.

In-chamber Cable Management

- Reduce the potential risk of tripping and device damage, and increase clinical safety.
- For easier cleaning and infection reducing.

SAFETY

Standard Rail Design

- Standard yet flexible docking rails for medical devices to meet variable clinical scenarios.

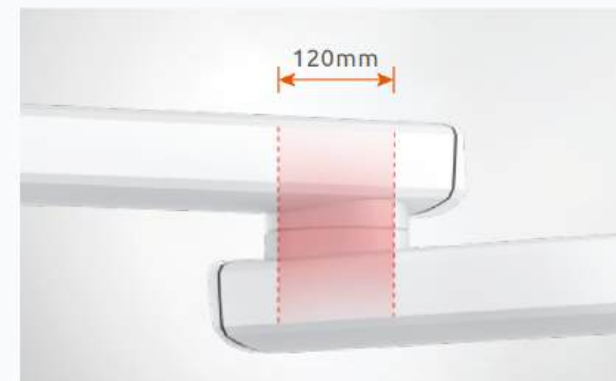

Super Bearing Capacity

- Easy lifting of heavy devices like anesthesia machine, steady and firm.

O₂ Leakage Alarm

- 24/7 real-time accurate monitoring for all day safety.

Large Size Joint Diameter

- 1200mm large size rotating joint diameter for one-to-one individual gas tubes passageway need.

High-end Electric-magnetic Brake

- Industry advanced e-magnetic design for better brake performance.
- Durable butterfly-shape ensures longer serving life, stronger locking and faster unlocking, for safer medical devices use.

Unibody Aluminium Tray

- Unibody aluminium tray with various size options.
- In-drawer compartment design with tailor-made option for certain medical and storage needs.

Illuminance System

- Outstanding illuminance system including environment light, reading light and night light, which can improve efficiency and safety of the medical practice, and create a more comfortable and amicable light environment.

INTELLIGENCE

Self-lock Shuttle

- Self-lock shuttle provides smooth yet stable sliding.
- Larger slide range with hidden cable management.

Information Integration

- Smart integration of medical, nursing and logistics system.
- Seamless with HIS, LIS, PACS, EMR.

Health Illuminance

- Full imitation of natural light from patient bed to the entire room, even the ward corridor.
- Integrate lighting like circadian, checking and reading and others to create an all day amicable environment.

Information Communication

- With the unique Uthink system to clearly express the thoughts, physical feeling and needs of the patients.
- Accurate and quick handling plays a vital part in the improvement of treatment and nursing quality.
